

Designing Professional Learning Experiences

Professional Portfolio Artifact

Focus Areas

Instructional Design | Learning Experience Design | Curriculum Architecture | Learning Content Development | Assessment Alignment

Overview

A structured approach to transforming complex professional knowledge into practical learning experiences that support capability development.

Professional Context

This artifact demonstrates an approach to designing learning journeys that connect objectives, activities, assessments, and workplace application.

Prepared by: Saheli Basu

Version 1.0

Designing Professional Learning Experiences

Overview

Designed structured learning experiences that transform complex professional knowledge into practical capability-building journeys.

The approach combines instructional design, assessment alignment, and applied learning activities to support meaningful skill development.

Challenge

Professional learners often face challenges such as:

- information overload
- limited opportunities for application
- unclear learning progression
- weak connection between learning and workplace outcomes

Solution Delivered

Designed learning experiences including:

- Learning objectives
- Course structures
- Module sequencing
- Practical activities
- Guided exercises
- Assessment alignment
- Learner resources

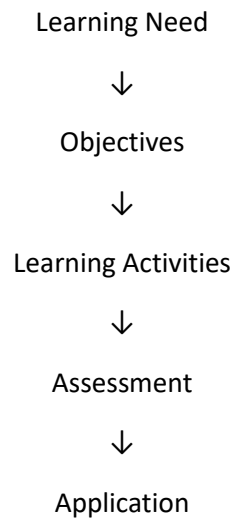

Learning Design Approach

Focused on:

Concept → Practice → Application → Demonstration

ensuring learners move beyond information consumption toward practical capability.

The applied process flow:

Value Created

The learning approach supports:

- clearer learner journeys
- stronger engagement
- measurable outcomes
- practical workplace application
