Prepared by: Saheli Basu

Version 1.0

SysteMetic: Professional Learning & Knowledge Systems Initiative

Overview

Founded and developed SysteMetic, an independent professional learning initiative focused on transforming complex professional concepts into structured learning resources, frameworks, and practical tools.

Purpose

SysteMetic explores how expertise can be transformed into:

- professional learning experiences
- practical frameworks
- field guides
- capability-building resources
- structured knowledge systems

Work Areas

Developing resources across:

- Assessment systems
- Governance
- Applied AI
- Decision intelligence
- Operational excellence
- Professional practice

Responsibilities

Led:

- Curriculum architecture
- Instructional design
- Learning resource development
- Editorial direction
- Framework design
- Knowledge organization

Value Created

Systemetic represents an approach to professional learning that connects:

Expertise → Structure → Practice → Capability

Skills

Learning Design | Curriculum Development | Knowledge Management | Professional Publishing |
Framework Design | Systems Thinking
